MEMORANDUM FOR: Deputy Director for Intelligence

FROM: Director of Central Intelligence

SUBJECT: Press Kit Saga

25X1

I agree with comment that we should "wean"--perhaps wean is too slow for the way I would like to do it--the White House Press Office off reliance on us for press kits and PR guidance. We provide the intelligence; it's up to them to work out how they think it should be used.

25X1
